ACADEMIC YEAR 2019-20

“Five Day Workshop on Social Media Management”

Topic: **“Five Day Workshop on Social Media Management”**
 Date & Time: 12th to 16th Feb 2020, 9.00 am to 4.30 pm
 Expert: **Ar. Sneha Kulkarni**
 Coordinator: Prof. Vaibhav Ghodke
 Attendees: First year students.
 Venue: APCOA, Computer Lab.

On October 12, 2019, our organization conducted a Five-day workshop on social media management. The workshop aimed to provide participants with essential knowledge and skills to effectively manage social media platforms for personal and professional purposes. The workshop was held at [Location] and was attended by [Number of Participants] enthusiastic individuals from various backgrounds.

Workshop Agenda:

The workshop was divided into several sessions, each focusing on specific aspects of social media management. The agenda for the day was as follows:

Session 1: Introduction to Social Media Management

Overview of social media platforms. Importance of social media management for personal and professional use. Setting goals and defining target audience

Session 2: Creating Engaging Content

Understanding the types of content that resonate with the audience. Tips for creating high-quality visuals, videos, and written content. Utilizing storytelling techniques to captivate followers

Session 3: Growing Your Social Media Presence

Strategies for increasing followers and building a community. Leveraging hashtags, collaborations, and influencers. Effective use of advertising and promotions

Session 4: Analyzing Metrics and Measuring Success

Introduction to social media analytics tools. Identifying key performance indicators (KPIs). Interpreting data and making data-driven decisions

Session 5: Best Practices and Practical Tips

Managing multiple social media accounts efficiently. Maintaining a consistent brand voice and identity. Dealing with challenges and negative feedback. **Workshop Highlights:** The workshop was highly interactive with a combination of presentations, group discussions, and practical exercises. Participants actively engaged in the sessions, sharing their experiences, and asking relevant questions. The facilitators provided real-world examples and case studies to illustrate key concepts and fostered an open and collaborative learning environment. Throughout the day, participants had the opportunity to apply their knowledge by creating sample social media content, conducting competitor analysis, and setting measurable goals for their own social media presence. The hands-on activities allowed participants to practice the skills they learned and receive feedback from both the facilitators and their peers.

ACADEMIC YEAR 2019-20

Topic:	<u>"Five Day Workshop on Social Media Management"</u>
Date & Time	: 15 th to 19th Jan 2019, 9.00 am to 4.30 pm
Expert	: Ar. Sneha Kulkarni
Coordinator	: Prof. Vaibhav Ghodke
Attendees	: First year students.
Venue	: APCOA, Computer Lab.

On October 12, 2019, our organization conducted a ^{five}-day workshop on social media management. The workshop aimed to provide participants with essential knowledge and skills to effectively manage social media platforms for personal and professional purposes. The workshop was held at [Location] and was attended by [Number of Participants] enthusiastic individuals from various backgrounds.

Workshop Agenda:

The workshop was divided into several sessions, each focusing on specific aspects of social media management. The agenda for the day was as follows:

Session 1: Introduction to Social Media Management

Overview of social media platforms. Importance of social media management for personal and professional use. Setting goals and defining target audience

Session 2: Creating Engaging Content

Understanding the types of content that resonate with the audience. Tips for creating high-quality visuals, videos, and written content. Utilizing storytelling techniques to captivate followers

Session 3: Growing Your Social Media Presence Strategies for increasing followers and building a community. Leveraging hashtags, collaborations, and influencers. Effective use of advertising and promotions

Session 4: Analyzing Metrics and Measuring Success

Introduction to social media analytics tools. Identifying key performance indicators (KPIs). Interpreting data and making data-driven decisions

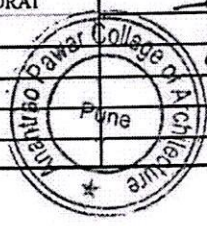

Session 5: Best Practices and Practical Tips

Managing multiple social media accounts efficiently. Maintaining a consistent brand voice and identity. Dealing with challenges and negative feedback. **Workshop Highlights:** The workshop was highly interactive, with a combination of presentations, group discussions, and practical exercises. Participants actively engaged in the sessions, sharing their experiences, and asking relevant questions. The facilitators provided real-world examples and case studies to illustrate key concepts and fostered an open and collaborative learning environment. Throughout the day, participants had the opportunity to apply their knowledge by creating sample social media content, conducting competitor analysis, and setting measurable goals for their own social media presence. The hands-on activities allowed participants to practice the skills they learned and receive feedback from both the facilitators and their peers.

My life My choice for the Girls.

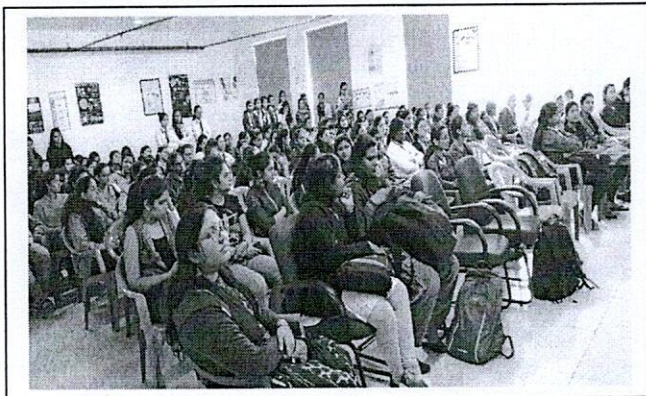

8th Jan 2019

Class: 1st to 4th Year Girls

Coordinator: Prof. Archana Ladkat. (SDO)

My life my choice lecture for self decision making power was organized by Anantrao Pawar College of Architecture, Pune on 8th Jan 2019 for the girls. It is for the 1st to 4th Year Girls and ladies faculty. My life my choice lecture was conducted by Pro. Neha Sathe (academic counselor). She has focused on strengthening the power, and amplifying the inner voices of the girls. She asked questions to the girls Does your current career make you feel "complete"? Is this the career that you would like to be involved in for the rest of your life? She has improved power of decision making it means decision is yours then responsibility is yours. Do what you like don't bother ourselves. Listen inner voice and make carrier.

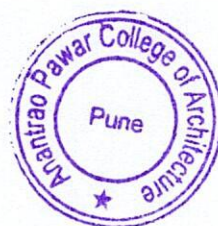

This lecture has been successfully arranged under the guidance of Principal Dr.Rajendra Koli, student development director and along with teaching non teaching staff.

ACADEMIC YEAR 2018-19

Topic:	: “POSITIVE THINKING PROGRAM.”
Time	: 27 th June 2018, 11.00 am to 3.30 pm
Expert	: Mrs Shailaja Sarnagale. & Swati Sathankar
Coordinator	: Prof. Prof. Almas m.
Attendees	: First & Second-year students.

POSITIVE THINKING PROGRAM

Positive thinking sounds useful on the surface. (most of us would prefer to be positive rather than negative.) but, “positive thinking” is also a soft and fluffy term that is easy to dismiss. In the real world, it rarely carries the same weight as words like “work ethic” or “persistence”. Positive Thinking program for all the students & teachers was organised by college of Architecture on 27th June 2018, for the development of our thinking ability in day to day life taking into consideration all the surrounding aspects of positive & negative which influence our day to day activity. The guest of Honour was Mrs Shailaja Sarnagale a Motivational Speaker along with Mrs Swati Sathankar President of Lions Club, Pune.

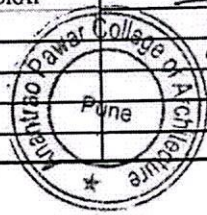

Starting with the lecture, she stated that research is beginning to reveal that positive thinking is about much more than just being happy or displaying an upbeat attitude. Positive thoughts can actually create real value in your life and help you build skills that last much longer than a smile. The impact of positive thinking on your work, your health, and your life is being studied by people who are much smarter than me. One of these people is Barbara Fredrickson, Quoted with an example. Fredrickson is a positive psychology researcher at the University of North Carolina and she published a landmark paper that provides surprising insights about positive thinking and its impact on your skills. Her work is among the most referenced and cited in her field and it is surprisingly useful in everyday life. Talking on positive movement of mind she started turning towards negative aspects which influence us, let's say that you're walking through the forest and suddenly a tiger steps onto the path ahead of you. When this happens, your brain registers a negative emotion — in this case, fear. Researchers have long known that negative emotions program your brain to do a specific action. When that tiger crosses your path, for example, you run. The rest of the world doesn't matter. You are focused entirely on the tiger, the fear it creates, and how you can get away from it. The session ended with an interaction activity with students as well as staff and it was supported with various question and answer sessions. This gave a healthy discussion solving as well as put forth all the queries which were trapped in mind regarding the problems facing in day to day life. Lastly the session ended with a vote of thanks by students.
